The Underwriter's Laboratory or Underwriter's Laboratory Canada places this tag or stamp on the device to indicate that safety testing of the device has been performed. Torchiere (pole) lamps are permitted only if they have LED bulbs with wattage consistent with the manufacturer's recommendation, no greater than 65 watts replacement. CFL, incandescent, and halogen bulbs are not permitted. Paper lanterns with bulbs, rope lights and string lights are not permitted. Placing cloth or paper over lighting is not permitted. Draperies, clothing, or other cloth materials are not permitted to be placed on or near electrical lighting devices. Justin began working as a Community Advisor in Brackenridge this past July. He grew up in Florida, but has lived outside of the States in Germany and central Asia for about 10 years total. He is a PhD candidate in the Department of Linguistics, where he studies signed languages, in particular how they emerge and change over time. He has lived in Brackenridge with his spouse and three children for almost 3 years and previously served on the Tenant Advisory Board (TAB) as a representative from Brackenridge for 2 years. In his (limited) free time, he enjoys hiking with his family, reading, soccer, and playing chess.

Justin knows many residents in the community, and looks forward to getting to know new residents at upcoming social events and while walking around the neighborhood.
The Tenant Advisory Board (TAB) is composed of student representatives living at University Apartments. TAB members represent student residents and registered guests by:
