Resident and Guest Parking

University Apartments Residents
Contract holders must request a University Apartments parking placard for any vehicles they or their registered guests park at University Apartments.

The parking placard should be hung from the rear view mirror or placed on the dash of the vehicle where the number is easily seen. Parking placards cannot be used for vehicles other than the one that they are registered to and are subject to towing if misused.

Vehicles with parking placards are not permitted to park in guest parking and are subject to towing.

Vehicles must be parked within the approved parking space lines and cannot block dumpsters, fire lines, other cars or other parking spaces.

Visitors
Cars parked in resident spaces without a valid placard visible are subject to towing at any time.

Guest parking is marked on signs in front of approved guest parking spaces. Pay attention to directional arrows on signs which indicate if multiple spaces are approved for guest parking.

Guests must park in guest parking spaces to avoid being towed. Please communicate the location of guest parking to any non-residents that are visiting you.

If a vehicle at University Apartments is not parking within the above guidelines or if you need to claim a vehicle that has been towed, please contact J & J Towing at:

Unannounced inspections will be conducted several times per year. Staff must be allowed to enter an apartment for an inspection. At the end of each inspection, staff will leave an inspection form in your apartment for your review. Please inform any guests about the University Apartments staff entry policy.

Inspections include:

- Fire extinguishers
- Smoke alarms
- Carbon monoxide alarms (if applicable
- Unapproved items (see Living Guide)
- Blocked exits
- Cleanliness
- Fire hazards
- Electrical hazards

Tips for Preventing Violations

The goal of inspections is to keep apartments free of policy violations that can be a detriment to community health and safety. Once a violation is found by staff, it must be reported. Some ways to prevent violating University Apartments policy are below:

- Check the Living Guide for multi-plug and electrical device requirements
- Keep all exits clear
- Clean your stove after each use (once cooled), especially if there are spills
- Avoid cooking on high or on a dirty stove to reduce fire risk and ease cleaning
- Use your air conditioner in warmer months to prevent humidity
- Clean the bathroom regularly; mildew may be harder to clean later
- Put in Maintenance Requests for any maintenance or pest control needs
- Call the CA On Call for after-hours emergencies (including replacing smoke/CO alarms)

If you have any questions, ask your CA.

You guessed it, Blackberries! Thank to our fellow gardeners, Hind and Hashim, who planted the blackberries in the community garden and who love to share the fruit of their labor, pun intended, with the rest of us, its blackberry season at the garden. Nothing beats eating freshly ripened, juicy, sweet and tart berries off the vine. If that makes you want to start your own little garden, please contact the garden manager at brackenridge.garden@gmail.com

Blackberry Iced Tea Recipe

Makes 1 pitcher:
8 cups hot water
6 black tea bags, or loose leaf
1 cup Blackberries, fresh or frozen
10-12 Mint leaves
1 lemon, zested and juiced
Honey, to taste
Ice cubes

1. Peel or grate the zest of one lemon taking care to avoid the bitter white rind
2. Add lemon zest and tea bags to hot water and stir.
3. Steep for 3 to 5 minutes depending upon how strong you like your tea
4. Mash blackberries with a fork and add to pitcher along with lemon juice, honey (optional), mint leaves and ice cubes.
5. Pour hot tea into the cold pitcher and enjoy once chilled.
Dear University Apartments residents: oi, tudo bem?

My name is Andreana Marchi and I will join the Tenant Advisory Board (TAB) this June. I am from Brazil but have lived in different parts of the USA in the last years. Before coming to Austin to pursue my PhD in Iberian and Latin American Linguistics, I worked as a Teaching Assistant and Coordinator of the Portuguese House at Middlebury College, Vermont. As a house coordinator, I organized weekly events directed to the students of the College as well as the members community that were interested in learning more about the Portuguese speaking world.

The interest in culture and languages led me to UT Austin in 2016 where I am now studying pragmatics and second language acquisition and teach Portuguese in our Department’s language program. Outside of academics, I enjoy spending time riding my bike on different trails here in Austin, cooking different meals, and exchanging ideas with my friends. I also like meeting new people and learning more about their world and perspectives on life.

As a TAB member I will make sure that residents have all the assistance they need. I will talk with the residents to listen to their recommendations and concerns and communicate with University Apartments staff and to advocate for our community. I will also be happy to work together with TAB to manage the community garden since I own a small garden on the balcony of my Gateway apartment. Overall, I want to make the University Apartments residents feel they belong in this community.

A gente se vê, Andreana.
The Tenant Advisory Board (TAB) is composed of student representatives living at University Apartments. TAB members represent student residents and registered guests by:

- Managing the Community Gardens;
- Making recommendations on policy to University Apartments;
- Engaging in advocacy in the community on issues related to residents’ concerns; and
- Improving the quality of community life by organizing events for residents.

Community Garden Agreements end June 30. If you are interested in continuing to use a garden plot, please contact your Garden Manager.
